

Cosmetic Eyeliner Tattoo Information Sheet

Consultation 30mins, \$50

You must book in a consultation prior to your cosmetic eyeliner tattoo appointment.

In this appointment Morgan will talk you through the tattoo process and answer any questions you may have. She will discuss with you what style and methods of tattoo may be best suitable for you and discuss shape and colour options.

It is a great idea to arrive at your consult with your eye makeup applied as this will guide Morgan on your preferred style and the look you may be after. You may also bring photos. Do not worry if you don't wear much makeup or don't normally wear eyeliner. Morgan can guide you with the style best suited to your eye and facial shape.

A test patch should be performed behind your ear for precaution, in advance of the procedure. This is highly recommended particularly if you find you are allergic to medicines / makeup / creams / metals / topical anaesthetics etc. The test patch should be performed a couple of weeks prior to your eyeliner tattoo appointment. The Beauty Extract shall not be liable for any reaction you may have to products used in the procedure, particularly if you elect not to undertake a test patch; you release and indemnify The Beauty Extract in respect of such matters.

Time permitting, Morgan may measure up and draw an eyeliner for you so you have a better idea of how the cosmetic tattoo may look.

Please take time to familiarise yourself on the [Cosmetic Tattoo Eligibility Checklist](#).

Upon booking a tattoo consultation, you will be sent a text message with a link requiring you to fill out the online [Cosmetic Tattoo Eligibility Checklist](#). This must be completed before your consultation appointment. If you have trouble filling it out, please arrive at least 5-10 minutes early to your consultation appointment so you can fill it out in salon and not compromise your appointment time. Please contact the salon if you require any further clarification or information ahead of your appointment.

Consultation appointments can be arranged as follows:

A consultation appointment can be booked at least 2 weeks in advance of your initial tattoo appointment but no more than 3 months in advance. This allows Morgan to review your [Cosmetic Tattoo Eligibility Checklist](#) in detail and provide advice on any required changes you may need to make in advance of your tattoo appointment, which could include obtaining doctors permission on certain medications / conditions. This also allows time to monitor the test patch and make changes as needed.

A consultation appointment can also be booked immediately before your initial tattoo appointment, however should you choose this option, it is your responsibility to ensure that you have provided your completed [Cosmetic Tattoo Eligibility Checklist](#) at least 1 week prior to your appointment, in addition to emailing photos of your eyes and face to thebeautyextract@gmail.com.au. Performing the consultation immediately before your tattoo appointment does not allow a test patch to be performed and monitored. It is your responsibility if you chose to proceed. If for any reason Morgan is unable to proceed with your tattoo on the day, your deposit will be forfeited and your appointment will need to be rescheduled.

Consultations for those who have had a previous eyeliner tattoo from another technician must be undertaken at least 2 weeks to in advance of your initial tattoo appointment but no more than 3 months in advance. This is because some existing tattoos may be too pigmented to tattoo over, removal options can be discussed if required and expectations can be explained. Colour or shape corrections can be quite technical, so the procedure needs to be carefully planned in advance.

It is your responsibility to ensure we are aware of your medical history at least 48 hours prior to any tattoo appointment. If you are unable to be tattooed at your appointment your deposit will be forfeited.

Eyelash Tinting, \$25

Eyelash tinting will enhance your natural shape by temporarily colouring and darkening your blonde and lighter hairs, to add the illusion of thicker and fuller lashes.

This can be booked in a week or so before your tattoo, or it can be added as part of an Eyeliner Tattoo Consultation appointment.

It is ideal to undertake your tint prior to your tattoo or for regular maintenance every 4-8 weeks and will add more fullness to your cosmetic eyeliner tattoo.

You cannot tint your eyelashes for at least 48 hours prior to or at least 2 weeks after being tattooed.

Eyelash Extension Removal, \$40

If you are having an eyeliner tattoo you **must** remove false eyelashes or eyelash extensions and all traces of lash glue prior to any eyeliner tattoo appointment.

The Beauty Extract can remove them for you, but the removal must be undertaken no less than 48 hours before your eyeliner tattoo appointment.

If you arrive to your eyeliner tattoo appointment with eyelash extensions on your deposit will be forfeited, and your procedure will need to be rescheduled.

Lash Line Enhancement Cosmetic Tattoo Top Lid, \$395

1 ½ hours

The lash line enhancement is perfect for that subtle 'barely there' look, while still naturally defining and framing your eyes.

Tiny dots of colour are implanted between the lashes which creates the illusion of a thicker and fuller lash line.

It is great for those who wear minimal makeup and who want more of a delicate, natural look. It is also suitable for all eye shapes and sensitive eyes.

This service involves a detailed consultation, Q & A's and colour selection.

All aftercare advice and take-home care is provided.

Lash Line Enhancement Cosmetic Tattoo Top + Bottom Lid, \$550

2 ½ hours

The top and bottom lash line enhancement is a beautiful, soft and natural eye opener.

It will not look heavy or dark and nor look like you have eyeliner on. It is great for those who wear minimal makeup or who have incredibly soft features.

Pigment is placed between the upper and lower lashes using a digital machine. It is suitable for all eye shapes and sensitive eyes. It helps to define the eyes and gives the appearance of thicker lashes.

This service involves a detailed consultation, Q & A's and colour selection.

All aftercare advice and take-home care is provided.

Eyeliner Cosmetic Tattoo Top Lid, \$550

2 ½ hours

The top lid eyeliner tattoo delivers a bold and more defined look that will enhance your eye shape, colour and size. It will skilfully be designed to open-up your eyes.

This smudge free and waterproof eyeliner is great for those who wear makeup and want a hassle-free defined look.

The lash line is tattooed, then the eyeliner shaped above this accordingly to add more depth and shape to your eyes. Finished off with a soft smoky look or a small wedge tail.

This service involves a detailed consultation, Q & A's and colour selection.

All aftercare advice and take-home care is provided.

Eyeliner Cosmetic Tattoo Top + Bottom Lid, \$650

2 ½ - 3 hours

The top and bottom lid eyeliner tattoo delivers a bold and more defined look that will enhance your eye shape, colour and size. It will skilfully be designed to open-up your eyes.

This smudge free and waterproof eyeliner is great for those who wear makeup and want a hassle-free defined look.

The lash line is tattooed, then the eyeliner shaped above this accordingly to add more depth and shape to your eyes. Finish the top off with a small wedge tail, or both top and bottom with a soft smoky look.

This service involves a detailed consultation, Q & A's and colour selection.

All aftercare advice and take-home care is provided.

Eyeliner or Lash Line Enhancement Cosmetic Tattoo Bottom Lid, \$250

1 hour

For your bottom lid, choose between a bolder eyeliner look or an incredibly soft dusted lash line enhancement.

This service involves a detailed consultation, Q & A's and colour selection.

All aftercare advice and take-home care is provided.

Eyeliner Adjustment Session (4-6 weeks after initial tattoo), \$95

1 ½ hours

It is completely normal for colour to have lifted or faded during the 4 to 6 week healing period as your eyes are a sensitive area and naturally reject foreign matter. The adjustment session is used to tweak and perfect the tattoo as well as make small adjustments to shape and symmetry as required following the first session.

The adjustment session must be performed no longer than 6 weeks after your initial tattoo, otherwise it will be priced as a maintenance session.

Eyeliner Additional Adjustment Session, \$75

Additional adjustment sessions may be necessary depending on how your skin holds the pigment. These are performed 4-6 weeks after your adjustment or maintenance session.

Eyeliner Cosmetic Tattoo Maintenance session

Everyone's skin holds tattoo pigment differently and because of this, many people need maintenance sessions at different stages.

There can be many factors as to why your eyeliner tattoo may fade over time and may need re-touching. It may be due to your skin type, your age, metabolism, how your body disperses the pigment, how you have looked after them or exposure to UV light, etc.

A maintenance session can be performed any time after your initial tattoo and can be used to tweak the colour or shape, or to freshen up your brows.

1 – 12 months – \$220

1 – 1.5 years – \$300

1.5 – 2 years – \$395

Bottom lid maintenance 1 month – 2 years - \$195

Durations are based on when you had your last tattoo appointment.

For durations beyond 2 years, the price is charged as an initial appointment.

To book in for a maintenance session you must know the date of your last tattoo treatment to ensure the correct time frame is selected.

Please call the salon on 0432 106 110 if you need clarification on time elapsed since your last session.

Maintenance sessions are only offered to previous cosmetic tattoo clients of The Beauty Extract.

Your Skin

- Some skin types may cause areas to blur or cause migration of the pigment. This is out of Morgan's control due to the oil flow in your skin.
- Healed results will vary with each individual.
- Delicate, mature skin can bruise easier due to the thinness and slower cell turnover. This skin type is also more prone to bleeding, which may impact the absorption and evenness of the pigment once it has healed. Migration can also occur with thin, delicate skin.
- You cannot tattoo over any blemishes, sores or moles, sunburnt skin in or on the border of the eye area. These areas will have to be avoided. Please note, existing sores may result in the inability to be tattooed on the day of your appointment. Please let The Beauty Extract know as soon as possible if your skin health or surrounding skin isn't 100% ahead of your appointment, as it may need to be rescheduled until after that area has healed.
- Please note that contact lenses must be removed to enable your eyeliner tattoo to commence. It is also recommended that you do not put contact lenses back in straight after the procedure by allowing 24 hours for your eyes to settle before putting your contacts in. Please ensure you have your glasses on hand for the 24 hours following the procedure.
- You are responsible for the final approval of the design of your brows as they appear drawn immediately prior to the procedure commencing. Please make sure that you are happy with the design of your brows prior to the procedure commencing as The Beauty Extract shall not be liable in the event that you change your mind.

Makeup

Please ensure you have removed all makeup and mascara before any eyeliner tattoo appointment, including waterproof mascara. It is best to do this the night before your appointment, to allow your eyes to settle.

Important information below. Please read carefully

Non-refundable Booking Fee Deposit

A \$200 deposit is required to secure your initial tattoo appointment. All other tattoo bookings require a deposit of 50% of the service fee at the time of booking. These deposits are non-refundable if you cancel or reschedule within 48 hours of your appointment time.

Your booking is not confirmed until you have paid your booking deposit.

You can book online by visiting our website www.thebeautyextract.com or by calling the salon on 0432 106 110. Please have your card details ready so your booking deposit can be paid, and your appointment confirmed.

Please take time to familiarise yourself with the [Cosmetic Tattoo Eligibility Checklist](#). It is your responsibility to check the information provided if you have not booked a consultation appointment. If you arrive for your initial tattoo appointment and you are not eligible, your deposit will be forfeited and your appointment will need to be rescheduled. You must advise The Beauty Extract at least 48 hours prior to any tattoo appointment if your medical history has changed in any way since your last appointment. If a change in medical history means you are no longer able to proceed with your tattoo, your deposit will be forfeited if notification is not received prior to the 48 hours before your appointment time.

Topical Anaesthetic

- There are different strengths of anaesthetic creams available. Whether you use an anaesthetic cream is your choice, it is not mandatory. It is highly recommended that you do. The Beauty Extract are not qualified medical practitioners and make no representations in relation to the suitability of any anaesthetic product for your body or for the procedure.
- Anaesthetic can be ordered from **Elixir Compounding Pharmacy, 26A/1880 Ferntree Gully Road, Ferntree Gully, 9758 8375**. The pharmacist will determine your suitability for topical anaesthetics and decide which one will suit you best, based on consulting with you. Usually, this pharmacist will recommend a mix similar to **10% mix of - 4% Tetracaine, 6% Lignocaine, in sorbolene 10g tube. This should be approximately \$35**. Be sure to order as soon as possible as this is a compounded mix and may take a day or two to be made. Please ensure the expiry of the product will still be valid at time of your appointment.
- It is advised to talk to your doctor and pharmacist about the different strengths of anaesthetic, if you have any concerns or contraindications to anaesthetic, and to determine which one may be best for you.

Please bring the numbing cream with you to your appointment.

This is applicable for every appointment. Please ensure the anaesthetic date has not expired before any adjustment or maintenance session, or you will need to purchase more.

Important information for pregnant clients and new mothers

- The Beauty Extract advises against being tattooed while pregnant.
- If you are breastfeeding you will need to pump and dump at least twice before you can resume breastfeeding your baby following your tattoo procedure. You should confirm this with the pharmacist who provides you with the anaesthetic cream.

Aftercare

- Please refer to the *Cosmetic Eyeliner Tattoo Aftercare Sheet* for the full aftercare information.

Drugs / Medications

Please refer to the *Cosmetic Tattoo Eligibility Checklist* page.

- If you are using ROACCUTANE or RETINA medicine, you must cease these drugs for at least 6 months prior to being tattooed.
- Please inform us of any medications you are taking, as some may be a contraindication to cosmetic tattooing. Please check with your doctor regarding medications / medical conditions, as in some cases we will require a letter of approval from your doctor to proceed with the procedure.
- You must notify The Beauty Extract if any of your medications, medical history or health changes at least 48 hours prior to any treatment given.

Facials / Botox

- Botox After your tattoo, you must wait a minimum of 3 weeks until undergoing a facial / peel / laser or using any strong products. Please make sure your therapist is aware that you CAN NOT use any strong peels / treatments / laser / IPL near the tattooed area as it could impact on the tattoo colour and longevity. This applies for general maintenance of the tattoo also.
- Botox or fillers should be done at least 2 weeks prior to or can be performed 2 weeks after your tattoo appointment.

Alcohol / Caffeine

- Do not consume any alcohol within the 48 hours before your procedure.
- Do not consume any caffeine within the 5 hours before your procedure.
- Having alcohol or caffeine in your system can thin your blood and increase bleeding, which can blur hairstrokes and reduce absorption of the pigment.
- You must not have any illicit drugs for at least 72 hours before procedure.

Nurofen / Blood Thinners / Aspirin

- Please avoid Nurofen and similar types of blood thinning medicines for at least 48 hours prior to getting your tattoo. If your doctor has advised you to take these medications DO NOT stop taking them, but we will require a letter of approval from your doctor to enable the procedure to go ahead. These blood thinning medications make you more prone to bleeding which can impact on the retention of the pigment and overall healing. If necessary, Panadol may be taken.

Anxiety

- If you suffer from any anxiety disorders, please consider carefully if this treatment is suitable for you. The entire process can take at least 12 weeks for full completion. The Beauty Extract will not be liable for any matters resulting from you choosing to stop the procedure prior to completion.
- The use of pencil or powder may still be needed to achieve your full desired look.

Tanning / Sunburn

- It is recommended that you avoid applying fake tan to your face at least 48 hours prior to your tattoo appointment. The activators and certain ingredients of the tan can disturb the tattoo pigment and risk colour change. After your tattoo, avoid tanning for at least 2 weeks on the face / brow area.
- You cannot get tattooed if your skin is sunburnt, including even a slight pinkness from sun exposure.

Have you ticked off the following?

- Read over the [Cosmetic Tattoo Eligibility Checklist](#), Information Sheet, and the Aftercare Sheet.
- Informed us if any of the contraindications or medical history from the [Cosmetic Tattoo Eligibility Checklist](#) are or may be relevant to you prior to any cosmetic tattoo appointment.
- Paid your deposit to secure your booking.
- Checked with your doctor about anaesthetics and strengths and have approval letters depending on your medical history or medications you are taking.
- Purchased your anesthetic cream.
